VERGÉS

Contract Furniture

The Vergés company is located halfway between the Mediterranean and the Pyrenees, a unique rural territory that deeply marks the people of the region. Its volcanic origin conditions the landscape and the vegetation, its spectacular forests are a true exhibition in any season of the year.

The small workshop, founded in 1970 to manufacture handmade boga chairs, something closely linked to the territory, has progressed over the years to adapt to an increasingly demanding market. This evolution required optimising resources and incorporating the latest technologies to convert the original workshop into a modern and dynamic factory. Today, the second generation of the family is driving the new stage of the company without renouncing its origins, the craft, tradition and attention to detail. These principles are reflected in the current collections, highlighting the dialogue between craftsmanship and modernity, and where innovation goes hand in hand with quality materials, design and good finishes.

Today, Vergés products are a point of reference for architects and interior designers looking for quality contemporary furniture to adapt to the demanding world of hospitality and public spaces. In this sense, Vergés' ability to adapt to the needs of each client stands out, offering personalised finishes with high quality fabrics and a wide palette of materials and colours.

In recent years Vergés has launched the Care collection, a family of inclusive furniture with a focus on people with functional diversity. This innovative commitment connects with a greater social sensitivity towards a demographic reality that requires robust and safe furniture that facilitates the lives of all people and contributes to creating more humane and comfortable spaces.

La empresa Vergés está situada a medio camino entre el Mediterráneo y los Pirineos, un territorio rural único que marca profundamente a la gente de la comarca. Su origen volcánico condiciona el paisaje y la vegetación, sus bosques son un verdadero espectáculo en cualquier estación del año.

El pequeño taller, fundado en 1970, para fabricar sillas artesanales de boga, algo muy ligado al territorio, fue progresando a lo largo de los años para adaptarse a un mercado cada vez más exigente. Esta evolución requirió optimizar los recursos e incorporar las últimas tecnologías para convertir el taller original en una moderna y dinámica factoría. Actualmente la segunda generación de la familia impulsa la nueva etapa de la empresa sin renunciar a sus orígenes, al oficio, la tradición y la atención por el detalle. Estos principios se reflejan en las colecciones actuales, destacando el diálogo entre lo artesanal y lo moderno, y donde la innovación va de la mano de la calidad en los materiales, el diseño y los buenos acabados.

Hoy los productos de Vergés son un referente para arquitectos e interioristas que buscan mobiliario contemporáneo de calidad para adaptarse al exigente mundo de la hostelería y los espacios públicos. En este sentido destaca la capacidad de Vergés de amoldarse a las necesidades de cada cliente, ofreciéndole la personalización de los acabados con tejidos de alta calidad y una amplia paleta de materiales y colores.

En los últimos años Vergés ha lanzado la colección Care, una familia de mobiliario inclusivo con una mirada puesta en las personas con diversidad funcional. Esta apuesta innovadora conecta con una mayor sensibilidad social hacia una realidad demográfica que precisa de mobiliario robusto y seguro que facilite la vida de todas las personas y contribuya a crear espacios más humanos y confortables.

Wood is our passion. We are committed to manufacturing solid, durable and comfortable furniture that ages with dignity and beauty alongside people. At Vergés, we explore new contemporary languages, incorporating innovative techniques that optimise manufacturing, together with the careful craftsmanship that we have been passionately developing for more than 55 years.

La madera es nuestra pasión. Nuestro compromiso es fabricar muebles sólidos, duraderos y cómodos que envejezcan con dignidad y belleza al lado de las personas. En Vergés exploramos nuevos lenguajes contemporáneos, incorporando técnicas innovadoras que optimizan la fabricación, junto a una cuidada labor artesanal que venimos desarrollando con pasión desde hace más de 55 años.

In 1970, Silvestre Vergés and Palmira Picart opened a modest workshop for producing the popular wicker chairs. They helped the Vergés company evolve and strengthen its position in the market while always remaining faithful to its roots, the values of local work and artisan tradition. Today, more than 55 years later, their sons Joan and Esteve are overseeing the company's new era with enthusiasm and energy.

En 1970 Silvestre Vergés y Palmira Picart abrieron un modesto taller para fabricar las populares sillas de boga. Siempre fieles a sus orígenes, a los valores del trabajo local y a la tradición artesana consiguieron que la empresa Vergés evolucionara y afianzara su posición en el mercado. Hoy, más de 55 años después, sus hijos Joan y Esteve lideran con ilusión y energía la nueva etapa de la empresa.

Trek is an armchair that pays attention to every detail and stands out for its striking visual character. Drawing inspiration from traditional safari chairs, the careful combination of solid wood and leather, coupled with an ingenious and delicate balance between soft and rigid elements, makes Trek a sober, timeless and extremely comfortable armchair. Con referencias a las tradicionales sillas de safari, la acurada combinación de la madera maciza y el cuero, sumados a un ingenioso y delicado equilibrio entre blando y rígido, convierten a Trek en una butaquita sobria, acogedora, atemporal y muy confortable. La estructura del asiento en forma de herradura le confiere carácter e invita a admirar la butaca desde cualquier ángulo.

Catalina Collection

Designed by Andreu Carulla

Catalina is a collection of chairs and stools with honest and elegant lines. With a minimalist aesthetic, it is inspired by 20th century Catalan rationalist architecture, Catalina is a version of the traditional bulrush seat chair. Its refined lines and intentionally simple geometry give centre stage to materials such as ash wood, rope and leather.

Catalina es una colección de sillas y taburetes de líneas honestas y elegantes. Con una estética minimalista, que se inspira en la arquitectura racionalista catalana del siglo XX, Catalina versiona la tradicional silla de asiento de enea. Sus líneas depuradas y una geometría intencionadamente sencilla ceden el protagonismo a los materiales como la madera de fresno, la cuerda y el cuero.

Rento Collection

Designed by Studio Tolvanen

Rento is a collection of very comfortable, warm and friendly armchairs designed by the Finnish designers Studio Tolvanen. True to their style, Julie and Mika Tolvanen pursue a formal look that combines bentwood profiles with textile slings to bring a fresh perspective to the classic lounge chair. Seen from above, the armrests and backrest of the Rento form an almost perfect circle with comfortable pillows which invite the person to sit and relax comfortably.

Rento es una colección de sillones muy confortables, cálidos y amables. Fieles a su estilo, los diseñadores Julie y Mika Tolvanen persisten en una búsqueda formal que combina perfiles de madera curvada con eslingas textiles para aportar una perspectiva fresca a la clásica butaquita de espera y descanso. Vistos desde arriba los brazos y el respaldo de la Rento dibujan un círculo casi perfecto, albergando almohadas de gran confort e invitando a un acogedor abrazo a quien se sienta en ella.

BERNARDES BACKREST CELLULOSE MESH / Rejilla de celulosa del respaldo Bernardes

The cellulose mesh is the finish used for the backrest of the Bernardes collection. The same colour finish is applied as on the chair frame. We always recommend applying a stain to the piece to achieve greater uniformity and to harmonise the colour of the wood with that of the mesh.

La rejilla de celulosa es el acabado del respaldo de la colección Bernardes. Se aplica el mismo acabado de color que en la estructura de la silla. Recomendamos siempre aplicar un tinte a la pieza para conseguir una mayor uniformidad y armonizar el color de la madera con el de la rejilla.
